

Casper Planetarium Summer Camps 2018

Children age 4

“Sunbeams,” June 11 - 15, 1:00 PM – 2:00 PM, \$30.00

Students will learn about our nearest star, the Sun, through stories, play, and song.

Children age 5

“Moonbeams,” June 18 - 22, 1:00 PM – 2:00 PM, \$30.00

Students will learn about our nearest neighbor the Moon through stories, play, and song.

Children age 6

“Solar System,” July 16 - 20, 1:00 PM – 2:00 PM, \$30.00

Students will learn about our neighborhood in space through activities and observations.

Children ages 7 and 8

“Stars,” July 23 - 27, 1:00 PM – 2:30 PM, \$35.00

Students will learn about the points of light we see in the sky. They may all look the same but they are not. They range in size, color, temperature, power, and life spans.

Children ages 9 and 10

“Electromagnetic Spectrum,” August 6 - 10, 1:00 PM – 3:00 PM, \$40.00

Students will learn the basics of the electromagnetic spectrum and how various types of electromagnetic waves are used to explore our universe.

Children ages 11 and Up

“Observational Astronomy,” August 13 - 17, 1:00 PM – 4:00 PM, \$40.00

Students will learn the basics of telescopes, how to safely view the sun, and star hop in the night sky to find interesting celestial objects.
